WORK EXPERIENCE

Department of Labor and Employment - Cavite Provincial Office
TUPAD Coordinator & IT Support **July 23, 2026 – Present**

- Administered and maintained the DOLE-Cavite website while diagnosing and resolving software, hardware, and network issues to ensure uninterrupted field office operations.
- Supported TUPAD program implementation by assisting with beneficiary profiling and encoding, processing and reviewing documents for completeness and compliance, creating GSIS insurance enrollment for beneficiaries, and coordinating with LGUs and stakeholders, while participating in field monitoring visits to help ensure smooth program delivery.

GIP (Government Internship Program) Staff **June 02, 2025 – July 22, 2026**

- Co-designed the UI and assisted in the development and maintaining the DOLE-Cavite Queueing System, improving organize client queues more efficient.
- Diagnosed, resolved, and configured software, hardware, and network issues across office devices, minimizing staff downtime.
- Produced internal publication and social media materials to support DOLE-Cavite's public communications.
- Delivered in-person and phone-based client support, resolving work-related concerns and releasing, receiving, and routing documents proficiently.
- Encoded and maintained confidential records across multiple DOLE information management systems with strict accuracy and data integrity.

IT Support Intern (OJT) **February 20 – May 30, 2025**

- Co-developed, and assisted in testing and deploying the TUPAD All-In-One System (TAIOS), which digitized the database, accelerated encoding beneficiaries' details speed by up to 11,500x, and enabled instant generation of TUPAD IDs and forms (PPE, contract, payout).

PROJECTS

DOLE - Cavite TUPAD All-In-One System (TAIOS) | *Laravel 12, Tailwind CSS, HTML, JavaScript, MySQL*

- Built a centralized, digitized database and dashboard for TUPAD beneficiary management, cutting manual encoding time by 90% and automating generation of IDs, contracts, and payout forms.

kITa: Android and Web-Based CvSU Lost and Found System | *Java, PHP, MySQL, HTML, Bootstrap, JavaScript*

- Designed and built a dual-platform system (Android app for users, web platform for admins) that centralized lost-and-found reporting and recovery, replacing a fragmented, manual process across campus.

CvSU Merch Store Website | *HTML, CSS, JavaScript, PHP, MySQL*

- Developed a full-stack e-commerce platform enabling CvSU students and staff to browse and purchase official university merchandise online.

SKILLS

Programming: Next.js, React, React Native, Node.js, TypeScript, JavaScript, Python, Tailwind CSS, HTML, MySQL
Tools & Platforms: Figma, Adobe Photoshop, Canva, Android Studio, Visual Studio Code, XAMPP, RESTful API, Supabase, Expo, Vercel, Git/GitHub, Jira, Notion, Google Workspace Applications, Microsoft 365 (Office)

Others: UI/UX Design, Graphic Design, Software, Hardware, and Network Configuring and Troubleshooting, Customer Service, Technical Documentation, Data Encoding & Management, Video Editing, AI tools

---
