WORK EXPERIENCE

Department of Labor and Employment - Cavite Provincial Office

GIP (Government Internship Program)

June 2, 2025 – Present

- Co-designed the User Interface (UI) of the DOLE - Cavite Queueing System.
- Assisted in troubleshooting software and hardware issues across office devices.
- Encoded confidential data and documents in various DOLE Information Management Systems.
- Provided client assistance for work-related concerns via face-to-face and phone interactions.
- Released certificates, received and routed documents, and performed administrative tasks.
- Assisted SEnA desk officers with client coordination, conference arrangements, and clerical requirements.

IT Support Intern (OJT)

February 20 – May 30, 2025

- Co-developed, tested, and deployed the TUPAD All-In-One System (TAIOS), which digitized the database, accelerated encoding speed by up to 11,500x, and enabled instant generation of TUPAD IDs and forms (PPE, contract, payout).
 - Designed publication materials for DOLE–Cavite social media and internal use using Adobe Photoshop and Canva.
-
